## MEMORANDUM

TO: Members of the General Assembly

FROM: Terrence D. Sullivan, Director of Research

785

RE: Legislative Commissions, Non-Standing Committees, Interim Studies

Because of the budgetary constraints facing State Government during this last year, the interim study commission/committee device has not been as active as during normal times. For example, the Legislative Research Commission (LRC), the General Assembly's umbrella study vehicle, normally coordinates the studies of upwards of 90 subjects during an interim. The LRC has not, as of this date, directed the undertaking of any of the studies that were authorized by the 2001 Session of the General Assembly.

This document contains lists of all permanent legislative commissions and non-standing committees and all studies authorized or directed to be undertaken by the 2001 General Assembly. The listing includes not only studies undertaken by legislative bodies, but also those directed to be undertaken by other agencies of State government.

Permanent commissions, committees, and other bodies of the executive and judicial branches are not included in this publication. For memberships of and information on other existing *permanent* executive and judicial agencies, please contact Ms. Cathy Martin, our Legislative Librarian, at 919.733.9390 or Ms. Meg Ryan O'Donnell, the Governor's Interim Director of Boards and Commissions, at 919.715.0966.

Mr. Brian Peck of the Legislative Library, working with other legislative staff and executive branch employees, compiled and edited this publication. The explanation of the publication's format with attention drawn to the changes is on the following page.

We hope that the modifications will aid you and your constituents in rapidly getting accurate information on matters of government policy. Your comments on and suggestions for improvement as to this publication, as well as other Research Division efforts, are solicited and always appreciated.

## PREFACE

For ease of use this publication is divided into two parts, 'Studies and Reports', and 'Study Commissions, Committees and Task Forces'. Each part has been printed on different colored paper to assist the user.

Part I, printed on yellow paper, is 'Studies and Reports'. This is a subject listing of each of the studies and reports authorized or undertaken by the 1999 General Assembly (1999 Regular Session), or that is due during this biennium. Entries are arranged by subject and include references to the legal authority of the study or report; the commission, committee, task force or agency from which the report is due; when the report is due; and to who it is to be made. A contact name is provided for agencies and statutory commissions when available. Legislative committee or commission contact information can be found in Part II under the listing for that committee.

Part II, printed on green paper, is 'Study Commissions, Committees and Task Forces'. This is an alphabetical listing by title of each commission, committee or task force directed or authorized to conduct the study listed in the first (yellow) part of this publication. Each entry includes the establishing legal authority; reporting requirements when applicable; scope of duties; additional studies assigned or referred; and, for legislative commissions and committees, the membership appointed thus far with their names, addresses and telephone numbers, and committee staff and their telephone numbers.

A comprehensive index is provided for additional access points.

A recent change has taken place in the citation format for the session laws. The previous format of SL followed by the two-digit year a hyphen and the chapter number (ex: SL91-100) is now SL followed by a four-digit year a hyphen and the chapter number (ex: SL2001-100).

The Editor.
